Support to Entrepreneurship around EPFL
About Ecosystems: the Rainforest

The Rainforest by Victor W. Hwang and Greg Horowitt perfectly explains that entrepreneurial innovation is chaotic and the diversity and connection of its actors make its richness and efficiency. The complexity of the EPFL ecosystem is therefore its strength even if it may appear complicated to a first-comer. But please remember all this is about people, not institutions. Indeed the following is of utmost importance:

The #7 Rainforest Rules
– Break the Rules and Dream
– Open Doors and Listen
– Trust and Be Trusted
– Experiment and Iterate Together
– Seek Fairness, Not Advantage
– Err, Fail and Persist
– Pay it Forward

The #6 Rainforest Tools
– Learn by Doing
– Enhance Diversity
– Celebrate Role Models and Peer Interaction
– Build Tribes of trust
– Create Social Feedback Loops
– Make Social Contracts Explicit
Entrepreneurship and Innovation are Complex

The next slides try to give an exhaustive list of tools and support mechanisms available for EPFL entrepreneurs. If it begins with research and technology transfer, innovation is further encouraged through:

- Advice (training, coaching, mentoring)
- Funding (grants, prizes, but also investments)
- Office space (co-working spaces, incubators, accelerators, technology parks)
- Exposure (events, networking, pitching of ideas, role models, community)
- Internationalization

This document shows the richness and related complexity of the EPFL ecosystem. We wish it will still be helpful as a resource reference list.
Public Funding of Education & Research

Conseil des Ecoles Polytechniques – ETH Rat
